Stem Tech Academy Tutorial Program

Located at
Turnquest Community
1686 Marywood Road, Melbourne, Florida 32934

STEM is an acronym for educational studies in Science, Technology, Engineering and Math.

STEM is taught in schools from grades K-12, college and trade schools to improve student's chances for getting good paying jobs.

STEM Tech Academy

This program is designed to instill an I Can Do It attitude in each child's life by teaching them how to become problem solvers.

- Students are provided assisted with home-work and class assignments to prevent them from falling behind in school.
- Correcting academic challenges improves employment success for the future.

Benefits to students:

- Correct academic challenges
- Encourage interest in STEM related activities
- Learning to work as a team
- Improving communication skills
- Develop confidence in academic abilities
- Learn goal oriented skills
- Exposure to technical professionals

Services provided:

- Evaluate classroom performance
- Assign student to tutors based on need
- Teach techniques for mastering classroom participation skills
- Provide coaching where needed
- Ed line class for parents

LEGOs Today

Good Paying Jobs Tomorrow

Building LEGO Robots

Your child will spend time with technical professionals and together with your support we can help them prepare for these high paying careers.

| | |
|----------------------|----------|
| Programmers | \$79,530 |
| Electrical Engineers | \$95,230 |
| Solar Engineer | \$82,500 |
| Robotics Engineers | \$79,900 |
| Scientists | \$77,028 |
| Technical Engineers | \$65,231 |
| Robotic Tech | \$51,000 |
